COMBINATION & FLEXIBILITY

[www.forvet.it](http://www.forvet.it)

SEE IN US,  
THE FUTURE

THE BLUE  SOLUTION

**FORVET**

COMBIFLEX has been designed to be self sufficient in all process execution.

From loading the raw glass to the unload of the completely processed glass, there are no requirements for operator to assist the process or to adjust the machine, even at thickness, shape, dimensions or process change.

COMBIFLEX è stata progettata per essere autosufficiente in tutti i processi produttivi.

Dal carico del vetro allo scarico della lastra completamente lavorata, l'operatore non deve assistere i processi di lavorazione per regolazioni o settaggi manuali, neanche per cambi di spessore, forma o dimensione del vetro.

## **FOOTPRINT 32 sqm ONLY INGOMBRO A TERRA SOLO 32 mq.**

**AUTOMATIC LOADING FROM RACKS - GRINDING - POLISHING  
DRILLING - NOTCHING - WATER JET - CNC WORKING CENTRE  
WASHING - DRYING - AUTOMATIC UNLOADING ON RACKS**

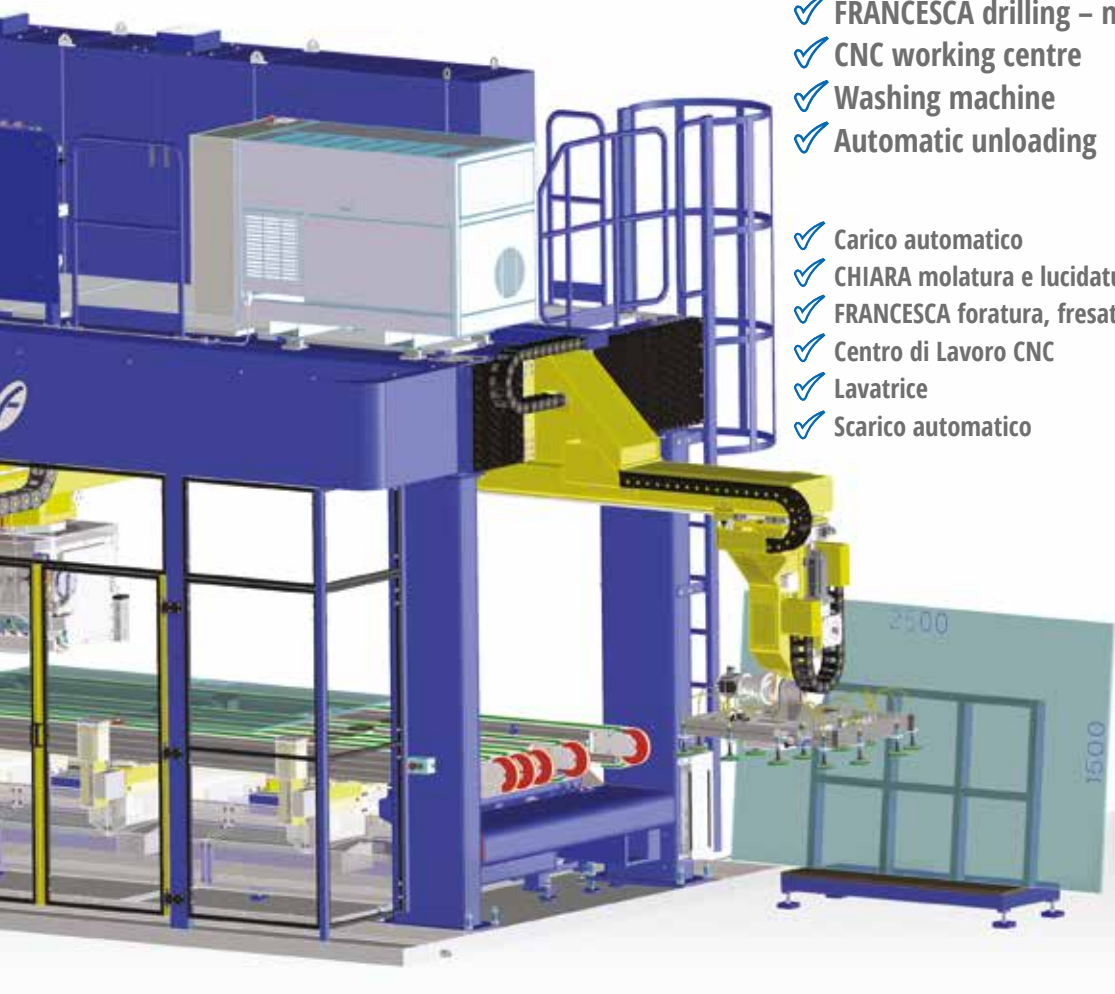

6 machines in ONE / 6 macchine in UNA

# COMBIFLEX

## COMBINATION & FLEXIBILITY

- ✓ Automatic loading
- ✓ CHIARA grinding - polishing
- ✓ FRANCESCA drilling - milling - water jet
- ✓ CNC working centre
- ✓ Washing machine
- ✓ Automatic unloading

- ✓ Carico automatico
- ✓ CHIARA molatura e lucidatura
- ✓ FRANCESCA foratura, fresatura, water jet
- ✓ Centro di Lavoro CNC
- ✓ Lavatrice
- ✓ Scarico automatico
